## **Color and Save the Ocean: A Coloring Book For All Ages** Karin Hoppe Holloway

The Ocean is the source and base of all life on our planet. There may be 50 million Ocean species. They depend on each other and we depend on them. Many of these marine animals are endangered from our activities. Being endangered can be fixed if we work at it; extinction is final, there is no going back. If we love our Ocean then we may be able to save it by donating to groups who are working to protect it. For each species in this colouring book I have suggested small, non-profit groups who need our donations. I hope coloring these endangered Ocean animals will help you to care about them and to love them as I do.
