Assisted Living and Residential Care Administration is a new and rapidly emerging health profession in which minimum standards of education for administrators are just being established. Organized around the current domains of practice for nursing home administrators, this self-study guide has 675 test questions in the national exam format. Each question is referenced to Allen's major text, ASSISTED LIVING ADMINISTRATION, to explain why your answers are correct or incorrect. This guide will test the knowledge of current administrators and educate them to run efficiently an assisted living or residential care facility so that it meets current federal requirements for safety and excellence.
