Moon Glacier National Park (Moon Handbooks) Becky Lomax

Writer, editor, and avid outdoorswoman Becky Lomax offers an insider's perspective on Glacier National Park, where she once worked shredding lettuce in the kitchen so she could hike the park's nearly 300 miles of park trails during her free time. From hiking through multi-color meadows filled with wildflowers to observing the Sperry Glacier, a victim of global warming that will vanish in less than two decades, Lomax knows the best ways to enjoy the park's one million acres of wilderness. She also includes unique trip strategies for travelers with specific interests and restrictions, including a Wildlife-Watching tour and a whirlwind One Day in Glacier tour. Whether it's biking up Going-to-the-Sun Road or watching a grizzly forage in huckleberries, *Moon Glacier National Park* gives travelers the tools they need to create a more personal and memorable experience.
