## **Ethics Under the Knife: Patient Care and Disservice in the Medical Industry** Dr. Matt Koepke

This book is written for the general public and the medical personnel who are not aware of the unprofessionalism involved in the operating room.

My mission is for this book to be a mandatory read as part of the curriculum for every medical professional program in the world. I want medical professionals to understand how to act in front of patients, how to maintain professionalism in line with the Hippocratic Oath, and more importantly, how to have the courage to speak up for the defenseless patient without being intimidated by hospital hierarchy.
