Ultrasound

In 187 cases that feature over 1,700 high-quality images, *Ultrasound* provides a succinct review of clinically relevant cases covering the full range of clinical problems and diagnoses in this subspecialty of radiology. Pathologies are grouped into Gynecologic, Obstetrical, Abdominal, Small Parts, and Vascular sections. The volume follows the easy-to-use format of question and answer in which the patient history is provided on the first page of the case, and radiologic findings, differential diagnoses, teaching points, and next steps in management, followed by suggestions for further reading. *Ultrasound* is an essential resource for radiology residents and practicing radiologists alike.
