## **I'll Take Half: A Mathematical Enrichment Story** Robert F. Gordon .

This book is written for fourth- to sixth-grade students to provide enrichment in mathematics and also can be useful for teachers to supplement the math curriculum in those grades. Math topics are presented by engaging the reader in a fantasy story. Building on the mathematics already learned in elementary school, the story enhances the student's understanding of general mathematical ideas of equality, congruence, symmetry, and uniqueness and also introduces mathematical reasoning. It is a story within a story that will surprise the reader, showing outcomes that are contrary to the reader's preconceived ideas. The examples give readers a clearer understanding of the mathematical concepts and challenge their thinking. Throughout the story are arithmetic and geometry results that readers can choose to verify or not, depending on their knowledge and interests. This allows students to follow the story at different levels. The book also provides preface and postscript sections, specifically written for parents, teachers, and advanced students to augment the material presented in the story and to help discuss the concepts in greater depth with the student.

### From reader reviews:

#### Frances Temple:

Do you have favorite book? When you have, what is your favorite's book? Reserve is very important thing for us to know everything in the world. Each e-book has different aim or maybe goal; it means that e-book has different type. Some people really feel enjoy to spend their time and energy to read a book. They are reading whatever they have because their hobby is reading a book. How about the person who don't like reading a book? Sometime, particular person feel need book once they found difficult problem or exercise. Well, probably you will want this I'll Take Half: A Mathematical Enrichment Story.

#### Della Ferguson:

People live in this new morning of lifestyle always attempt to and must have the extra time or they will get lot of stress from both day to day life and work. So , when we ask do people have free time, we will say absolutely of course. People is human not a robot. Then we consult again, what kind of activity are you experiencing when the spare time coming to anyone of course your answer will probably unlimited right. Then ever try this one, reading guides. It can be your alternative inside spending your spare time, the book you have read is actually I'll Take Half: A Mathematical Enrichment Story.

#### Richard Powe:

Playing with family in a park, coming to see the ocean world or hanging out with close friends is thing that usually you have done when you have spare time, and then why you don't try thing that really opposite from that. 1 activity that make you not experience tired but still relaxing, trilling like on roller coaster you have been ride on and with addition info. Even you love I'll Take Half: A Mathematical Enrichment Story, it is possible to enjoy both. It is great combination right, you still need to miss it? What kind of hangout type is it? Oh can happen its mind hangout guys. What? Still don't buy it, oh come on its referred to as reading friends.

#### Grace Smith:

In this age globalization it is important to someone to find information. The information will make a professional understand the condition of the world. The health of the world makes the information quicker to share. You can find a lot of sources to get information example: internet, newspaper, book, and soon. You will see that now, a lot of publisher which print many kinds of book. The book that recommended to you is I'll Take Half: A Mathematical Enrichment Story this publication consist a lot of the information on the condition of this world now. This kind of book was represented how does the world has grown up. The dialect styles that writer use for explain it is easy to understand. The particular writer made some study when he makes this book. That's why this book ideal all of you.
