Newmerology: From Sex to Stocks, It's All in the Numbers Nick Newmont

Dating back over 5,000 years, the Egyptians, the Chinese, the Greeks, and the Hebrews all read numbers to understand human behavior and to predict the future. The practice has been tried and tested over many millennia, but every once in a while a teacher discovers a new piece of the puzzle that enriches the science and takes it to a new level. Nick Newmont has done just that with Newmerology. Newmerology presents a different system with new discoveries and tools tested on thousands of case studies from individual clients and businesses. The addition is different than what is familiar among numerologists today, the conclusions are more in depth and the interpretations are more expansive and specific. Much of what this system reveals about your life, relationships, career, finances, children, destiny, and year ahead has literally never been set to print before. Unlike predictive sciences that require years of study and experience, Newmerology is devised so you can use it without the help of an expert. Newmerology takes this ancient science, modernizes it, makes it user-friendly, and puts the empowerment tools in your hands.
