Between Hope and Despair

Between Hope and Despair

At the end of a century of unfathomable suffering, societies are facing anew the question of how events that shock, resist assimilation, and evoke contradictory and complex responses should be remembered. *Between Hope and Despair* specifically examines the pedagogical problem of how remembrance is to proceed when what is to be remembered is underscored by a logic difficult to comprehend and subversive of the humane character of existence. This pedagogical attention to practices of remembrance reflects the growing cognizance that hope for a just and compassionate future lies in the sustained, if troubled, working through of these issues.
