Medicinal Plants: Chemistry and Properties

M Daniel

Medicinal Plants: Chemistry and Properties M Daniel

The selection of plants studied in this treatise is based on its significance, and its representation of members of different taxonomic families as well as of different classes (and subclasses) of compounds. All the available data on the chemical compounds and the pharmacological studies on these plants/compounds have been incorporated. The plants are arranged by the type and nature of chemical compounds they contain. Secondary metabolites have been included in this volume due to their great therapeutic role.
