Global Environmental Change: Past, Present, and Future

Karl K. Turekian

Global Environmental Change: Past, Present, and Future Karl K. Turekian

Suitable as a primary text for a variety of introductory undergraduate courses including global environmental change or earth and human history found in departments of geology, geophysics, or earth science. Aimed for the non- science major, the text assumes a knowledge of high school chemistry or physics. Also suitable as a supplemental text in other courses. Using a chronological narrative to unravel the record of global environmental change, this text explores the full range of naturally-occurring and human-induced/affected environmental changes.
