## **Handbook of Trailer Sailing** Robert Forrest Burgess

Increasing competition for mooring and dock space has driven the price of their favorite sport out of reach for far too many sailors. The solution? Downsizing to an affordable boat stored between sails on a trailer. Not only is the boat safe and convenient, but cruising options expand dramatically--the whole continent becomes available at 55 miles per hour dead to windward. Whether you're a new sailor just starting out or an old hand choosing the '90s phenomenon of "downshifting," this completely revised and updated edition of Bob Burgess's *Handbook of Trailer Sailing*, first published in 1984 and widely acclaimed as the trailer sailor's bible, will chart your whole course. There's detailed information on finding your dream boat, outfitting and setting up, trailers and trailering, elementary and advanced sailing, anchoring, customizing for comfort, taking care of your outboard motor, sail camping, cruise planning, and more.
