# Ecology and Behaviour of the Ladybird Beetles (Coccinellidae)

## Ecology and Behaviour of the Ladybird Beetles (Coccinellidae)

Ladybirds are probably the best known predators of aphids and coccids in the world, though this greatly underestimates the diversity of their biology. Maximising their impact on their prey is an important element in modern conservation biological control of indigenous natural enemies in contrast to the classical approach of releasing alien species.

Ivo Hodek is one of the most internationally respected experts on coccinellids who has researched these insects for his entire career. He has now brought together 14 scientists of international standing to author 12 chapters, making this book the definitive treatment of coccinellid biology and ecology.

This volume covers the rapid scientific developments of recent years in the understanding of coccinellid phylogeny, the semiochemicals influencing their behaviour and of molecular genetics. Recent insights in relation to intraguild predation and the assessment of the predatory impact of coccinellids are also covered.

Other special features of the volume are the extensive references covering the literature from both East and West and a taxonomic glossary of the up-to-date nomenclature for species of coccinellids as well as of other organisms mentioned in the text.

While aimed at researchers, university teachers and agricultural entomologists, the book is readable and appropriate for others who just have a liking for these interesting and attractive insects.

### From reader reviews:

#### **Charles Kinsella:**

What do you think of book? It is just for students as they are still students or this for all people in the world, what the best subject for that? Just you can be answered for that query above. Every person has different personality and hobby for every single other. Don't to be compelled someone or something that they don't want do that. You must know how great and also important the book Ecology and Behaviour of the Ladybird Beetles (Coccinellidae). All type of book are you able to see on many sources. You can look for the internet methods or other social media.

#### **Mary Quinn:**

What do you about book? It is not important along? Or just adding material when you require something to explain what the ones you have problem? How about your spare time? Or are you busy person? If you don't have spare time to try and do others business, it is make you feel bored faster. And you have time? What did you do? Everyone has many questions above. They have to answer that question because just their can do which. It said that about book. Book is familiar in each person. Yes, it is suitable. Because start from on guardería until university need that Ecology and Behaviour of the Ladybird Beetles (Coccinellidae) to read.

#### **Susan Negri:**

The feeling that you get from Ecology and Behaviour of the Ladybird Beetles (Coccinellidae) is the more deep you searching the information that hide inside the words the more you get interested in reading it. It doesn't mean that this book is hard to be aware of but Ecology and Behaviour of the Ladybird Beetles (Coccinellidae) giving you thrill feeling of reading. The writer conveys their point in selected way that can be understood by simply anyone who read the idea because the author of this publication is well-known enough. This specific book also makes your vocabulary increase well. It is therefore easy to understand then can go along, both in printed or e-book style are available. We propose you for having this particular Ecology and Behaviour of the Ladybird Beetles (Coccinellidae) instantly.

#### **Patty Scheuerman:**

Information is provisions for individuals to get better life, information presently can get by anyone with everywhere. The information can be a knowledge or any news even a problem. What people must be consider whenever those information which is inside the former life are difficult to be find than now is taking seriously which one is suitable to believe or which one typically the resource are convinced. If you receive the unstable resource then you have it as your main information it will have huge disadvantage for you. All of those possibilities will not happen inside you if you take Ecology and Behaviour of the Ladybird Beetles (Coccinellidae) as the daily resource information.
