One of the Best Books for Toddlers age 1-4 Full Color with 27 Illustrations! Toddler tested and approved! I think I was bit a mosquito is a book that will put a smile on your little one's face every time you read it. Little Timmy is in a bit of a bind. He gets home from school to find that he is itchy everywhere! Your toddler will be able to follow along with Little Timmy as he scratches away; one body part after the other. Although there may be other books about body parts for children here on Amazon, I think I was bit by a Mosquito is very unique because it serves three functions. First, it is a wonderful learning tool for younger toddlers who are just becoming familiar with their bodies and are curious about their various body parts. I Think I was Bit by a Mosquito covers an incredible 18 body parts! A great educational book for kids age 1-4. The second piece is that I think I was bit by a Mosquito is such a fun book that even kids who are already familiar with the body parts being mentioned will love mimicking the actions of little Timmy and playing along. The third benefit is that your child will be learning how to rhyme with words. My toddler loves to pretend that he is itchy everywhere just like little Timmy. Try this out with your little one and it will be nothing but fun and giggles; creating memories that you will cherish forever.
