## Anti Feminism

Feminism has become a group of professionally offended, totalitarian man haters using the word feminism, and it's once positive connotations, as a mask for their fascist actions. Feminist propaganda is all around us. It's manifesting itself in the minds of young impressionable girls via social media leading them to see average men as oppressive sexual predators. This is extremely damaging to their outlook on life and relationships. As you will find out, so many of the facts that they use as the basis of their arguments are completely false. Feminists use hate campaigns via social media platforms to silence anyone who disputes any of their feminist ideals. We all need to educate ourselves about this totalitarianism group and how these bitter, sexist women are brainwashing young girls and we need to do it now. If we leave this hateful and oppressive movement to grow and gain even more steam we will all suffer as a result. It needs to be stopped now before it's too late and that begins with educating ourselves so that we can spread the truth.
