Larsen's Human Embryology, 4e (Schoenwolf, Larsen's Human Embryology) Gary C. Schoenwolf PhD, Steven B. Bleyl MD PhD, Philip R. Brauer PhD, Philippa H. Francis-West PhD

This book presents in-depth coverage of both the clinical and molecular biological aspects of human development. It examines the relationship between basic science and embryology, and describes potential clinical disorders arising out of embryologic problems. A strong clinical focus, practical design, and superb artwork—with more than 150 images new to this edition—allow for quick comprehension and easy application of the latest knowledge in this rapidly advancing field. A user-friendly design enables you to review the material in several ways, and online access to Student Consult enhances your study of the subject and exponentially boosts your reference power.

- Follows a user-friendly design allowing students to review material in flexible ways and instructors to tailor the book to their specific needs.
- Reflects the most current advances in molecular biology and genetics.
- Offers chapters with illustrated timelines of the relevant embryologic stage.
- Contains a high-quality full-color art program, with excellent line diagrams with a three-dimensional aspect, many color photographs of clinical disorders, excellent black and white electronphotomicrographs, and line drawings showing sequential stages of development.
- Presents clinical cases in each chapter that place the content into a real-life context.
- Begins each chapter with a summary providing at-a-glance reference to key information.
- Features Clinical Tasters following the summaries at the start of each chapter that present a clinical case example related to the material for that chapter.
- Offers new chapters covering morphogenesis and dysmorphogenesis, for expanded explanations of the making of an embryo, focusing on cell-cell signaling pathways.
- Emphasizes important content through clinical (In the Clinic) and research (In the Lab) boxes many new to this edition.
- Concludes each chapter with lists of references for further in-depth study.
- Includes access to Student Consult at www.studentconsult.com, where you'll find the complete text and illustrations of the book online, and fully searchable "Integration Links" to bonus content in other Student Consult titles 200 USMLE-style questions to help you assess your mastery of the material embryology animations that bring the topic to life and much more!

From reader reviews:

Robert Rios:

Do you have favorite book? When you have, what is your favorite's book? Guide is very important thing for us to learn everything in the world. Each publication has different aim or goal; it means that book has different type. Some people experience enjoy to spend their the perfect time to read a book. They can be reading whatever they take because their hobby is reading a book. What about the person who don't like reading through a book? Sometime, man or woman feel need book once they found difficult problem or maybe exercise. Well, probably you will need this Larsen's Human Embryology, 4e (Schoenwolf, Larsen's Human Embryology).

Jan Doyle:

Reading a book tends to be new life style in this era globalization. With looking at you can get a lot of information that could give you benefit in your life. Together with book everyone in this world can certainly share their idea. Guides can also inspire a lot of people. A lot of author can inspire their very own reader with their story or maybe their experience. Not only situation that share in the guides. But also they write about the ability about something that you need illustration. How to get the good score toefl, or how to teach your kids, there are many kinds of book which exist now. The authors on this planet always try to improve their proficiency in writing, they also doing some investigation before they write on their book. One of them is this Larsen's Human Embryology, 4e (Schoenwolf, Larsen's Human Embryology).

Coleman Jones:

Many people spending their time by playing outside together with friends, fun activity along with family or just watching TV 24 hours a day. You can have new activity to enjoy your whole day by reading through a book. Ugh, you think reading a book really can hard because you have to bring the book everywhere? It alright you can have the e-book, taking everywhere you want in your Cell phone. Like Larsen's Human Embryology, 4e (Schoenwolf, Larsen's Human Embryology) which is finding the e-book version. So, try out this book? Let's notice.

Christine Cote:

That publication can make you to feel relax. This kind of book Larsen's Human Embryology, 4e (Schoenwolf, Larsen's Human Embryology) was colourful and of course has pictures around. As we know that book Larsen's Human Embryology, 4e (Schoenwolf, Larsen's Human Embryology) has many kinds or type. Start from kids until adolescents. For example Naruto or Private eye Conan you can read and think you are the character on there. So, not at all of book usually are make you bored, any it can make you feel happy, fun and rest. Try to choose the best book to suit your needs and try to like reading which.
