Memories With Maya Clyde Dsouza

A story of one man's determination to HACK his destiny...

The story looks at how augmentation technology will affect emotions, intimate human relationships, and our very evolution as a species.

"EMOTIONS ARE LIKE A VIRUS, a common cold...disrupting the flow of logic in the mind." Daniel reminds himself.

Dan's work involves creating commercially viable AR solutions. The recession and an explosion of data-cops is drying out his streams of income.

He turns to close friend, Krish, a researcher in Artificial Intelligence, in the hope that they can come up with ideas for the Entertainment market. His girlfriend, Maya, and her family return to their homeland after her father passes away.

Dan and Maya continue their relationship via Dirrogates (Digital Surrogates), experiencing human touch through haptics. Krish gets a job at the prestigious A.I.R.I. Using AIRI's lab, Krish and Dan, create an advanced visor with Augmented Intelligence built in.

They dub it "Wizer". A Board member at AIRI sees potential in the Wizer other than what Dan and Krish have in mind.

At a test in a nightclub, things go wrong...

Can the Wizer "insure memories" and be a catalyst to accelerate the journey toward eventual Technological Singularity?

Memories with Maya also poses the question: **Can we transcend the Humanity?**

The plausible science in the story details **how AR & AI will merge to create Digital Surrogates in our own likeness - our DIRROGATES.**
