*U.S. Environmental Protection Agency*

**RCRA Ground Water Monitoring: Draft Technical Guidance** U.S. Environmental Protection Agency  
The standards set forth in subpart F of the hazardous waste management regulations for permitted facilities requires owners and operators to sample ground water at specific time intervals to determine whether or not hazardous wastes are causing contamination. This manual provides guidance for implementation of the standards and covers such issues as site hydrology, detection monitoring system design, well design and construction, and sampling and analysis.
