## **Creation and the Heart of Man: An Orthodox Christian Perspective on Environmentalism (ORTHODOX CHRISTIAN SOCIAL THOUGHT) (Volume 1)** Fr. Michael Butler, Andrew P. Morriss

Rooted in the Tradition of the Orthodox Church and its teaching on the relationship between God, humanity, and all creation, Fr. Michael Butler and Prof. Andrew Morriss offer a new contribution to Orthodox environmental theology. Too often policy recommendations from theologians and Church authorities have taken the form of pontifications, obscuring many important economic and public policy realities. The authors establish a framework for responsible engagement with environmental issues undergirded not only by Church teaching but also by sound economic analysis. *Creation and the Heart of Man* uniquely takes the discussion of Orthodox environmental ethics from abstract principles to thoughtful interaction with the concrete, sensitive to the inviolability of human dignity, the plight of the poor, and our common destiny of communion with God.
