In Detail

The Apple configurator is an incredible piece of software which grants full control in mobile device management, but on a larger scale. The popularity of people taking their own devices to work has grown tremendously. However, valued professional and personal information is at risk, through loss, theft, or hacking.

Instant Apple Configurator How-to is a hands-on guide that eliminates any worries that are associated with the deployment and security of iOS devices. This book provides practical, quick win solutions to combat these issues, with clear, concise, and informative examples providing solutions to secure, remote wipe, and encrypt devices. The book will further explore how to personalize iOS devices for configuration and deployment.

With the Instant Apple Configurator How-to, learn to build profiles with customised control settings, with examples on how to capture device information and use console logs for added protection. You will become skilled at tracking and installing provisional profiles for greater security. We will also explore developing workflows for successful deployment, installing software and applications whilst managing files on iOS devices, and how to deploy enrolment profiles for mobile device management solutions en masse. If you are looking for a complete guide that provides simple solutions to complex problems, look no further.

Approach

Filled with practical, step-by-step instructions and clear explanations for the most important and useful tasks. Get the job done and learn as you go. A how-To book with practical recipes accompanied with rich screenshots for easy comprehension.This book follows the Packt How-to approach, offering an informative yet practical guide that is easy to understand. The book takes a meticulous approach to providing quick and simple recipe-based solutions for security and deployment of iOS devices.

Who this book is for

"Instant Apple Configurator How-to" book is ideal for anyone with a working knowledge in iOS device deployment and management. It is likely you will be responsible for the maintenance and security of iOS devices, ranging anywhere from 10 to 10,000. This is the ultimate guide to iOS security management and device deployment.

From reader reviews:

Joyce Loza:

Spent a free time for you to be fun activity to perform! A lot of people spent their free time with their family, or their very own friends. Usually they doing activity like watching television, going to beach, or picnic from the park. They actually doing ditto every week. Do you feel it? Do you want to something different to fill your personal free time/ holiday? Could be reading a book can be option to fill your no cost time/ holiday. The first thing that you'll ask may be what kinds of guide that you should read. If you want to consider look for book, may be the e-book untitled Instant Apple Configurator How-to can be fine book to read. May be it could be best activity to you.

Alysa Appel:

Many people spending their period by playing outside together with friends, fun activity together with family or just watching TV all day long. You can have new activity to spend your whole day by studying a book. Ugh, you think reading a book can actually hard because you have to take the book everywhere? It alright you can have the e-book, taking everywhere you want in your Mobile phone. Like Instant Apple Configurator How-to which is finding the e-book version. So , why not try out this book? Let's view.

Donna Graham:

With this era which is the greater man or who has ability in doing something more are more treasured than other. Do you want to become among it? It is just simple method to have that. What you need to do is just spending your time almost no but quite enough to have a look at some books. One of many books in the top collection in your reading list is actually Instant Apple Configurator How-to. This book which is qualified as The Hungry Inclines can get you closer in getting precious person. By looking up and review this publication you can get many advantages.

Kim Heflin:

As a university student exactly feel bored for you to reading. If their teacher questioned them to go to the library or to make summary for some guide, they are complained. Just little students that has reading's internal or real their leisure activity. They just do what the teacher want, like asked to the library. They go to right now there but nothing reading critically. Any students feel that reading through is not important, boring in addition to can't see colorful pictures on there. Yeah, it is to get complicated. Book is very important for yourself. As we know that on this era, many ways to get whatever we really wish for. Likewise word says, many ways to reach Chinese's country. Therefore this Instant Apple Configurator How-to can make you truly feel more interested to read.
