## **Particle Man (Volume 1)** Deric McNish

"(McNish) has written a different take on the superpower story wrapped in an easy-going memoir package that draws you through the story. **A good time for fans of fantastic tales in the modern world.**" - Jordan D. White, Editor, Marvel Comics (*Deadpool, Star Wars*)

He didn't set out to save the world. *He just wanted his family back.*

Every magnificent prank he played on his sister backfired, and now he knows why. She is an accelerator. She can move so fast that the world around her seems to grind to a halt. **She's not the only one.**

In 1956 everything was rosy. Things look different now. Alone and pursued by a sinister group that controls the world's particle accelerator laboratories, he has nowhere to turn but a bizarre group that might be heroes or terrorists.

In an adventure that spans decades, he lurches through time, fleeing a shadowy figure that's always one step ahead. He can move faster than thought, but isn't quick enough to escape a global conspiracy.

**When particles collide, who will be left standing?**
