This book is about helping you find life—an ethically intelligent life—and changing your slice of this world for the better.

For centuries, we have been on a slow but accelerating descent into **ethical fog**. We now live in a worldwide society full of fear, distrust, and suspicions, all sustained by a building tsunami of self-centered and harmful ethical judgments at all levels and within all areas of human endeavor. Managers and leaders in business, government, medicine, philanthropy, science, and even spiritual and religious organizations are no longer believed or trusted. This book prepares **YOU to lead the way forward**. The ancient wisdom and practical knowledge contained in this book empowers you to make a positive difference in your organization, department, team, church, family, neighborhood, and personal life.

This book contains a unique and powerful combination of ancient wisdom and the life experiences of senior business leaders as they wrestled with ethical dilemmas. It includes a measure of history and theory wrapped around ethical struggles that have burned in the furnace of life. In this book, you'll find theory because theory is important. But it's theory grounded in the real world. It's a powerful fusion that produces a time-tested **ROADMAP** for action.

Ethical Intelligence Is Your Birthright! This book shows you how to unlock the vault and reclaim it, and begin your journey to an ethically intelligent life.
