A Field Guide to Insects and Diseases of Australian Potato Crops Paul A. Horne, Rudolf De Boer, Denis Crawford

Accurate identification of insects and diseases is essential for good management. It helps growers to avoid costly mistakes, and is especially valuable for growers using Integrated Pest Management (IPM) to minimise their use of pesticides. This book presents the key results of recent extensive research and wide consultation. It is essential reading for all potato growers and industry advisers in Australia. The latest research information; detailed and reliable; easy to read and to use; fully illustrated to aid identification.
