High Efficiency Video Coding (HEVC): Algorithms and Architectures (Integrated Circuits and Systems)

High Efficiency Video Coding (HEVC): Algorithms and Architectures (Integrated Circuits and Systems)

This book provides developers, engineers, researchers and students with detailed knowledge about the High Efficiency Video Coding (HEVC) standard. HEVC is the successor to the widely successful H.264/AVC video compression standard, and it provides around twice as much compression as H.264/AVC for the same level of quality. The applications for HEVC will not only cover the space of the well-known current uses and capabilities of digital video – they will also include the deployment of new services and the delivery of enhanced video quality, such as ultra-high-definition television (UHDTV) and video with higher dynamic range, wider range of representable color, and greater representation precision than what is typically found today. HEVC is the next major generation of video coding design – a flexible, reliable and robust solution that will support the next decade of video applications and ease the burden of video on world-wide network traffic. This book provides a detailed explanation of the various parts of the standard, insight into how it was developed, and in-depth discussion of algorithms and architectures for its implementation.

From reader reviews:

James Newman:

Have you spare time for any day? What do you do when you have much more or little spare time? Yes, you can choose the suitable activity intended for spend your time. Any person spent their spare time to take a walk, shopping, or went to typically the Mall. How about open or read a book entitled High Efficiency Video Coding (HEVC): Algorithms and Architectures (Integrated Circuits and Systems)? Maybe it is being best activity for you. You know beside you can spend your time with the favorite's book, you can smarter than before. Do you agree with its opinion or you have additional opinion?

Melanie Finnegan:

Your reading sixth sense will not betray anyone, why because this High Efficiency Video Coding (HEVC): Algorithms and Architectures (Integrated Circuits and Systems) book written by well-known writer we are excited for well how to make book which can be understand by anyone who also read the book. Written with good manner for you, still dripping wet every ideas and publishing skill only for eliminate your own hunger then you still question High Efficiency Video Coding (HEVC): Algorithms and Architectures (Integrated Circuits and Systems) as good book not only by the cover but also by the content. This is one reserve that can break don't determine book by its deal with, so do you still needing another sixth sense to pick this!? Oh come on your studying sixth sense already alerted you so why you have to listening to an additional sixth sense.

Vera Pinckney:

The book untitled High Efficiency Video Coding (HEVC): Algorithms and Architectures (Integrated Circuits and Systems) contain a lot of information on the item. The writer explains the woman idea with easy method. The language is very clear to see all the people, so do not really worry, you can easy to read this. The book was published by famous author. The author brings you in the new time of literary works. It is possible to read this book because you can read more your smart phone, or gadget, so you can read the book within anywhere and anytime. In a situation you wish to purchase the e-book, you can open up their official website in addition to order it. Have a nice examine.

Robert Rascoe:

Do you like reading a book? Confuse to looking for your chosen book? Or your book ended up being rare? Why so many query for the book? But any people feel that they enjoy regarding reading. Some people likes studying, not only science book but additionally novel and High Efficiency Video Coding (HEVC): Algorithms and Architectures (Integrated Circuits and Systems) or maybe others sources were given information for you. After you know how the great a book, you feel wish to read more and more. Science publication was created for teacher or even students especially. Those guides are helping them to increase their knowledge. In various other case, beside science book, any other book likes High Efficiency Video

Coding (HEVC): Algorithms and Architectures (Integrated Circuits and Systems) to make your spare time much more colorful. Many types of book like this one.
